NZSAR Training Development Update
13 August 2011

Training Development

Incident Manager / Controller

Purpose is to redevelop the content and delivery of SAR IM/C technical and managerial training for SAR managers and controllers in order to ensure it is coherent and suitable for the current and future requirements of the SAR IM/C function.

SAR IM/C

Principles:

Alignment with the NZSAR Core Curriculum.

Maximum use of existing IM/C training.

Utilise the most recent SAR documentation and manuals.

Make effective use of alternate training delivery methods such e-learning, extramural e-learning and blended training delivery.

Duncan Ferner: Hi Rachel
Rachel: hello!
Duncan Ferner: whadya reckon?
Rachel: it would be good if we could talk can you hear me
Duncan Ferner: not yet - something has gone wrong - let me try to fix it
Duncan Ferner: can you see me?
Rachel: i can hear you typing to me
Rachel: i could see you before but not now
Duncan Ferner: I can see you
Rachel: i can hear you
Duncan Ferner: I server in USA
Duncan Ferner: where u go?
Duncan Ferner: powerful
Duncan Ferner: yes
Duncan Ferner: can you hear me?

Issues & Action Points

Explore ways for Police and RCC to communicate more efficiently for SAR purposes.

- Looking at MoU between Police and RCCNZ. RCCNZ has completed presentations to Police courses and workshops. RCCNZ staff attending police courses.
- ❖ RCCNZ Liaison visit programme includes Police Comms Centres and Police SAR Coordinators.
- ❖ RCCNZ is developing an awareness package for Police Comms Centre call takers.
- ❖ RCCNZ contributes to Police courses and workshops.
- ❖ RCCNZ staff attending police courses.
- ❖ OSC courses.
- For Police and RCCNZ to work through for general communication however possible suggestion during a SAROP is a direct video link.

Training is to be suitable and relevant for all attendees.

Preferable use of New Zealand based instructors.

Training must be transportable and able to be delivered consistently throughout NZ.

Be as efficient as possible in the use of people's time and of sector resources.

Take into consideration the requirements the NZ qualifications framework through FRSITO

MODULE ONE

2 Days

**CIMS 2 OR CIMS 4
(LAND SPECIFIC)**

**INTRODUCTION TO
NAVIGATIONAL CHARTWORK
(MARINE SPECIFIC)**

Possible Subjects on the Course

Introduction to Navigational Chartwork
Plot a Course and fix a position on a Chart
Intro to Chart Protractor and Nautical Slide R
Explain Latitude & Longitude
Explain Chart Marginal Information

Introduction to Tides

MODULE TWO

3 Days

**MANAGING INITIAL RESPONSE
(JOINT TRAINING)**

**GENERIC LAND / MARINE
INITIAL MANAGEMENT TOPIC's
(Subjects to be Confirmed)**

**SPLIT INTO BREAK OUT ROOMS TO
DISCUSS SPECIFIC'S**

**LAND
SPECIFIC
OBJECTIVES**

**MARINE SPECIFIC
OBJECTIVES**

**SPECIFIC LAND / MARINE SUBJECTS
(Below topic's are work in progress)**

Land & Marine Resources
The Crucials of Search
First Notice and Search Urgency Assessment
Info gathering and Situation Reporting
Assessment and Initial Response
Reflex Tasking
Risk Management
Initial Search Area Determination
Incident Action Planning (management by object
Tasking and Briefing
Documentation
Managing External Influences
Search Suspension
De-mobilisation
Debriefing

SUPPLEMENTARY TOOLS

**LAND / MARINE SPECIFIC CASE STUDIES
LAND / MARINE SPECIFIC SCENARIO's
LAND / MARINE SPECIFIC TABLE-TOP's**

MODULE THREE

3 Days

**FORMAL SEARCH PLANNING
(JOINT TRAINING)**

**GENERIC LAND / MARINE
FORMAL SEARCH MANAGEMENT TOPIC's
(Subjects to be Confirmed)**

**SPLIT INTO BREAK OUT ROOMS TO
DISCUSS SPECIFIC'S**

**LAND SPECIFIC
OBJECTIVES**

**MARINE
SPECIFIC
OBJECTIVES**

**SPECIFIC LAND / MARINE SUBJECTS
(Below topic's are work in progress)**

The Development of a Search Plan
SAR Plan Considerations
Search Planning
Search Area's
Rescue Planning and Delivery
Termination or Suspending Operations

SUPPLEMENTARY TOOLS

**LAND / MARINE SPECIFIC CASE STUDIES
LAND / MARINE SPECIFIC SCENARIO's
LAND / MARINE SPECIFIC TABLE-TOP's**

MODULE FOUR

2 Days

**INCIDENT MANAGEMENT
TRAINING EXERCISES
(JOINT TRAINING)**

EXERCISE (1) ONE

**LAND BASED
IMTEX**

EXERCISE (2) TWO

**MARINE BASED
IMTEX**

EXERCISE (3) THREE

**COMBINED
BASED IMTEX**

SAR IM/C

High priority project

COA has been endorsed

Considerable work remains and your (organisations) involvement will be required.

Aiming to deliver initial course(s) vicinity May 2012.

In the mean time – use what we have

On Scene Coordinator

Jet Ski Hangs Ten Picture by Jeff A. Frame (2006) Press
May 2, 2006 - Tounoupe, Tahiti - Surfer Raimond Van Bastelaer has done what a man is counted with when his tow-in partner, Ross McInnis, loses control of his personal watercraft and falls from the jet ski, which is then pulled over the lip of the breaking wave. Bastelaer ducks and avoids the massive jet ski as it goes straight into a shallow reef.
